=> s l7 and ?silyl?

LEFT TRUNCATION IGNORED FOR '?SILYL?' FOR FILE 'REGISTRY'

509411 SILYL?

L9 2 L7 AND ?SILYL?

Left truncation is not valid in the specified search field in the specified file. The term has been searched without left truncation. Examples: '?TERPEN?' would be searched as 'TERPEN?' and '?FLAVONOID' would be searched as 'FLAVONOID.'

If you are searching in a field that uses implied proximity, and you used a truncation symbol after a punctuation mark, the system may interpret the truncation symbol as being at the beginning of a term. Implied proximity is used in search fields indexed as single words, for example, the Basic Index.
